

Uzair Waseem

FULL-STACK SOFTWARE ENGINEER | BACKEND APIs | QA AUTOMATION | SECURE DELIVERY

Dublin, Ireland | +353 89 973 9932 | uzairwaseem29@gmail.com

uzairwaseem.com | linkedin.com/in/uzair-waseem | github.com/Assembler-Fourier

PROFESSIONAL SUMMARY

Dublin-based software engineer with remote experience delivering React and TypeScript web products, backend APIs, automation and QA workflows. Builds production-shaped systems with Node.js, Python, PostgreSQL, Playwright, Docker and GitHub Actions. MSc Cybersecurity adds practical depth in authentication, authorization, data isolation and secure software delivery.

TECHNICAL SKILLS

Frontend: TypeScript, React, Next.js, JavaScript, HTML, CSS, responsive UI, PWA

Backend: Node.js, Express, REST APIs, Python, FastAPI, validation, serverless functions

Data and cloud: PostgreSQL, Supabase, Neon, SQL, MongoDB, Docker, Vercel, CI/CD

Quality: Playwright, Vitest, Pytest, API testing, regression testing, accessibility testing, GitHub Actions

Security: Authentication, authorization, RLS, secure sessions, CSRF, rate limiting, OWASP, secure SDLC

PROFESSIONAL EXPERIENCE

Software Engineer (Full-Stack) - Outstanding Marketing

Remote - Germany | Feb 2025 - May 2026 | outstanding-marketing.de

- Delivered React and TypeScript web features, internal dashboards and Node.js/API integrations for remote e-commerce and growth workflows.
- Automated reporting and repeatable QA checks to improve release visibility and reduce manual review.
- Converted stakeholder requirements into scoped tasks, delivery updates and reviewable product work.

Junior Software Engineer - LocalhostLabs

Pakistan | Jun 2024 - Dec 2024 | localhostlabs.tech

- Built responsive front-end and back-end features across web applications, APIs and databases.
- Fixed defects, documented workflows and supported version control, QA triage and release handoffs in a consultancy delivery environment.

SELECTED ENGINEERING PROJECTS

Roster Command - Workforce Operations Platform

Stack: TypeScript, React, Node.js APIs, Supabase PostgreSQL, Vitest, Playwright, PWA, GitHub Actions

[Live product](#) | [GitHub source](#)

- Built a live manager and employee system that ranks roster gaps, explains cover suggestions and supports weekly planning, holidays, communications and review workflows.
- Separated private workforce data from a signed read-only recruiter demo using synthetic records and server-side write rejection; CI verifies type checks, tests and build.

HouseFair - Multi-Household Shared-Living PWA

Stack: Next.js 16, React 19, TypeScript, Supabase Auth/PostgreSQL/RLS, Zod, Playwright, Stripe foundation

[Live product](#) | [GitHub source](#)

- Built an installable product for recurring chores, groceries, expense splits, settlements and calmer house-issue workflows.
- Enforced household-scoped access with authenticated server routes and PostgreSQL RLS; mobile Playwright regression tests run in passing CI.

Irish Theory Test Coach - Pre-Launch EdTech Product

Stack: JavaScript, Vercel Functions, Neon PostgreSQL, Stripe, passwordless sessions, PWA, accessibility automation

[Live product](#) | [GitHub source](#)

- Built timed mock exams, progress coaching, protected premium flows, payment handling and role-protected operator tooling for an independent practice product.
- Validated a 1,277-item content pipeline, 18 of 18 Stripe sandbox scenarios and 11 of 11 post-deploy checks; production remains gated on legal/content review.

EDUCATION

MSc Cybersecurity - National College of Ireland, Dublin | 2025 - 2026

BSc Computer Science - FAST NUCES, Pakistan | 2020 - 2024

Team final-year project: [Style Sense AI Wardrobe](#) - deep learning and image-recognition application.

AVAILABILITY

Open to full-stack, backend, graduate software and QA automation roles across Ireland, including hybrid and remote teams.
